PERSONAL PROFILE

A B.Tech student with a strong academic background with the ability to think through a problem with the confidence to make ideas heard. A detail-oriented and eager student seeking an opportunity to learn and grow within a reputable company's.

EDUCATION

Rungta College of Engineering and Technology, Raipur 2021 - 2025
Bachelors Computer Science & Engineering

Army Public School, Danapur Cantt 3/2020 - 3/2021
12th Board (CBSE) **Percentage:** 86.8

SKILLS

- | | |
|--|---|
| <ul style="list-style-type: none">• Programming Languages: Python, C++, Java, JavaScript• Operating Systems: Kali Linux, Windows, Ubuntu,• Networking Protocols: TCP/IP, UDP, DNS, HTTP/HTTPS• Incident Response: Knowledge of incident response procedures• Web Security: OWASP Top 10, Web Application Firewalls (WAFs) | <ul style="list-style-type: none">• Penetration Testing: Burp Suite, SQLmap• Tools and Platforms: Git, GitHub, MySQL, VS Code, Nmap, Metasploit• Soft Skills: Communication, Team Collaboration, Time Management |
|--|---|

PROJECTS AND EXPERIENCE

spy digger using python.

Developed a network scanning tool to identify open ports, detect operating systems, and check for web vulnerabilities. Features an interactive interface for versatile network analysis.

CipherLock — Password Manager (React, TypeScript, Supabase)

- Built a secure, site-specific password manager with hashing, and educational modules.

Cybersecurity and Ethical Hacking Intern

Codtech IT Solutions

Issued: February 2024-march 2024

- Gained hands-on experience with SQL Injection, vulnerability scanning, and ethical hacking techniques.
- Developed skills in cybersecurity, including practical knowledge of security best practices and vulnerabilities.

Cybersecurity Intern, Uptoskills (Feb–May 2025)

- Conducted VAPT on live websites
- Reported and recommended fixes for security issues.

PATENT

A Secure Password Management Device with Encryption, Multi-Factor Authentication, and Training

- Reference Number: 202421101247
- Status: published
- Summary: I invented and developed an innovative password management solution, Cipher Lock, to enhance cybersecurity. The device generates and retrieves unique, site specific, hashed passwords using SHA-256 encryption. It incorporates features such as user training modules .

CERTIFICATION

- Junior Security Practitioner
 - Issued by: Dfronix Cybersecurity and Ethical Hacking Internship
 - Duration: 1 month
- Organization: Codetechitsolution
 - Automate Cybersecurity Tasks with Python
 - Issued by: Google (via Coursera)
 - Date: March 13, 2024
 - Verification Link: [Verify Certification](#)
- Building Web Applications in PHP
 - Issued by: University of Michigan (via Coursera)
 - Date: July 20, 2024
 - Verification Link: [Verify Certification](#)
- The Cybersecurity Threat Landscape
 - Date: May 4, 2024
 - Certificate ID: 2504ae9e5558cba9a9f1b4fb9f208825485135ec1b24b5fdd4976222f670be6
 - Skills Covered: Cybersecurity, Threat & Vulnerability Management
- Cybersecurity
 - Issued by: Tech Mahindra Foundation
 - Validity Authorized By: Skill India Digital

EXTRACARICULAR ACTIVITY

Tata Cybersecurity Security Analyst Job Simulation on Forage - July 2025

- Completed a job simulation involving identity and access management (IAM) for Tata Consultancy Services, collaborating with a Cybersecurity Consulting team.
- Acquired expertise in IAM principles, cybersecurity best practices, and strategic alignment with business objectives.
- Delivered comprehensive documentation and presentations, showcasing the ability to communicate complex technical concepts effectively.

Deloitte Australia Cyber Job Simulation on Forage - July 2025

- Completed a job simulation involving reading web activity logs
- Supported a client in a cyber security breach
- Answered questions to identify suspicious user activity
